

KIDSPACE LEARNING CENTER BEFORE AND AFTERSCHOOL PROGRAMS

Our after-school program is geared toward promoting a healthy atmosphere for interaction with friends in both teacher-directed and child-directed experiences. We will begin each day offering a homework period for those that need it that will allow children to complete their homework while it is still fresh in their minds.

The children will have ample free time to decide whether they would like to play board games, do crafts, free play or play outside/in the gym in a supervised environment. This non-rigid activity time allows them to make decisions for themselves.
